Plan Management Service

A New Kind of Service

Registered NDIS Provider

OUR SERVICE

Planting the Seed is dedicated to delivering the service you want.

Participants receive a personalised one-on-one plan management service delivered by independent, and professional plan manager based on the participants' individual needs.

Our mission is to empower individuals with the knowledge to engage their choice and control.

We provide all participants a **free** personalised budget summary to assist with understanding what support and services are in their budget, and an action plan to build understanding of the **National Disability Insurance Scheme** NDIS.

We will manage the participants NDIS funds in a transparent and consistent manner, ensuring all budget information is delivered in an understandable and easy-to-read format and ensuring the participants privacy is always protected.

WE OFFER

- ✓ A personalised service tailored to your needs
- ✓ An independent service not linked to other disability organisations
- ✓ Connection through the National Relay Service
- ✓ Passionate industry qualified accounting professionals
- ✓ Exceptional customer service, 20+ years experience in business
- ✓ A nationwide service delivery

OUR GOALS

- ✔ To make your plan management service hassle-free so you can enjoy the benefits and leave the paperwork to us!
- ✔ To empower participants by providing choice and control over their NDIS plans as we believe having the right information means you can make informed decisions and reach your goals sooner.
- ✔ To inform, promote and educate all stakeholders on the 'fund management' options and their differences.

ABOUT THE PLAN MANAGEMENT SERVICE

WHY USE?

- We pay the bills for you.
- Gives participants choice and control over which Service Providers are used.
- Non-registered Service Providers can be used to maximise choice.
- Participants keep control over their allocated funds without the hassle of doing it themselves.
- It is a free service supported by the NDIS.
- Additional funding is added to the plan under 'improve life choices'.

WHAT WE DO?

- Create one service booking for all supports within budgets that are plan-managed.
- Track participant spending against their budget for supports that are plan-managed.
- Request payments on participants' behalf from the portal for budgets that are plan-managed.
- Pay participants' service providers on their behalf.
- Store participants' invoices electronically.
- Provide a monthly or quarterly statement of participants' spending.

CHOICE AND CONTROL

You have 3 choices in how your plan is managed, self, plan or agency.

Understanding these choices is the key to your success.

Under a plan management service arrangement, all bills are paid directly by the registered plan management service.

Participants that are plan managed can choose NDIS registered providers or unregistered service providers, maximising choices.

Connect with us today to learn how we can help you achieve your goals!
